Your way of living Your design floor

Your home, it's where you work, sleep, learn, meditate, cook, garden, work out and cool down. It expresses who you are. Now more than ever. So why not design it that way? We couldn't agree more. At Moduleo, we are firm believers of self expression. It's why we design floors in the first place. Because a space that truly feels like you, begins with a floor that feels like you.

Whether you're thinking of stone, wood or maybe herringbone, we make sure you have a solid foundation to start from. Our premium floors are designed to keep up with life. And as for your own unique style? Our Roots collection is as diverse and vivid as nature itself. From warm classics like oak and walnut to serene, natural stones and playful terrazzo. A Roots dryback floor also excels in terms of comfort and performance. You're bound to find a floor that fits your unique way of living.

Six themes to get you started

Picking a floor can be challenging. But we are here to guide and inspire you along the way. We browsed the world of interior design to curate some of the most exciting new colours, materials, shapes, and furniture. And we matched them with our Roots collection. The result? Six thrilling interior themes, each with their own aesthetic and feeling. They are yours to explore. A tip from our designers: don't limit yourself to just one. Play around with all of them and go with whatever feels right.

Made and designed in Belgium

We design
& develop
in-house

The Belgian way

We are proud of our Belgian roots. Belgian design is known and acknowledged all over the world. Because we have a unique point of view on the world and a distinct way of doing things. We're eager to pick up on what's happening in society by being open minded and empathetic. Not just in design, but in fashion, art, architecture, and music too. Just think of Ensor, Magritte, Horta or Dries Van Noten. At the same time, our modest nature always keeps us with our feet firmly on the ground. And that's how we are able to find the perfect balance between creativity and realism in our designs. Time and time again.

100% Belgian 100% Moduleo

From researching and testing to designing and producing, everything is done in-house. Right here in Belgium. Why? So we can be in charge of the entire production process and push the boundaries of our craftsmanship in every single step of it. It's easier for us, better for the planet and good for you. Because your vinyl floor will turn out exactly the way we envisioned it. Made to last. On trend. And fit to match your unique way of living.
